DIVYA R

A dynamic problem solver, driven by an unrelenting commitment to excellence. Possessing a robust programming foundation, I am poised to invigorate innovative enterprises. Proficient in harnessing the full potential of Python, SQL, and data visualization, I am poised to drive transformative outcomes. Fuelled by an insatiable thirst for learning, I am resolutely focused on achieving collective triumphs.

IT PROFICIENCY

JAVA

- Basic knowledge of Java programming fundamentals, including variables, data types, and basic control structures.
- Familiarity with Object-Oriented Programming (OOP) concepts such as classes, objects, and methods.
- Basic understanding of conditional statements and loops for simple program flow control.
- Exposure to Java's standard libraries and basic file input/output operations.

STRUCTURED QUERY LANGUAGE

- Good understanding of **RDBMS** concepts like constraints, Normalization, Tables
- Excellent Knowledge of writing **SQL queries**.
- Good understanding of SQL concepts like **Grouping, Sub-queries, Functions**.
- Solid understand of SQL **Joins** (Inner joins, Left join and Right joins and full joins).
- Good knowledge of **DDL, DML and TCL**.

HTML CSS

- Proficient in creating and structuring web content using HTML, including knowledge of essential tags for text, images, links, and forms.
- Basic understanding of CSS for styling web pages, including applying colors, fonts, and basic layout properties.
- Familiarity with HTML5 and CSS3 features, such as semantic elements and modern styling techniques.
- Basic knowledge of responsive web design principles and media queries to create websites that adapt to different screen sizes.

INTERNSHIP

Besant Technologies, Bangalore (Jun 2023 - Aug 2023):

- Successfully completed an intensive 3-month internship, achieving advanced proficiency in java and SQL.
- Demonstrated adeptness in utilizing java for innovative problem-solving and optimizing SQL queries for efficient data manipulation.

CERTIFICATION

"Received a participation certificate from scalar for successfully completing a course on Multithreading and Java Concurrency ,demonstrating expertise in concurrent programming.

PROJECT

Project: Market Analysis and Business Opportunity Assessment in Bangalore

Summary: The project aims to conduct a comprehensive market analysis in Bangalore to identify potential business opportunities for a client interested in starting a new venture. By utilizing MySQL and Power BI, we will analyze offline and online retail sales data, customer demographics, and product categories to provide strategic recommendations.

Role: Developer: Data Analyst.

Technologies Used: MySQL, Power BI.

Project Outcomes:

The "Market Analysis and Business Opportunity Assessment in Bangalore" project successfully provided our client with valuable insights into the retail market of Bangalore. The data-driven approach helped identify lucrative business opportunities and high-potential locations for the client's new venture.
